WARNING:

Petitioner/applicant is cautioned to avoid submitting personal information in documents filed in a patent application that may contribute to identity theft. Personal information such as social security numbers, bank account numbers, or credit card numbers (other than a check or credit card authorization form PTO-2038 submitted for payment purposes) is never required by the USPTO to support a petition or an application. If this type of personal information is included in documents submitted to the USPTO, petitioners/applicants should consider redacting such personal information from the documents before submitting them to the USPTO. Petitioner/applicant is advised that the record of a patent application is available to the public after publication of the application (unless a non-publication request in compliance with 37 CFR 1.213(a) is made in the application) or issuance of a patent. Furthermore, the record from an abandoned application may also be available to the public if the application is referenced in a published application or an issued patent (see 37 CFR 1.14). Checks and credit card authorization forms PTO-2038 submitted for payment purposes are not retained in the application file and therefore are not publicly available.

8. SHOWING

The enclosed statement will show that the delay in timely payment of the maintenance fee was unavoidable since reasonable care was taken to ensure that the maintenance fee would be paid timely and that this petition is being filed promptly after the patentee was notified of, or otherwise became aware of, the expiration of the patent. The statement must enumerate the steps taken to ensure timely payment of the maintenance fee, the date and the manner in which the patentee became aware of the expiration of the patent, and the steps taken to file the petition promptly.

9. PETITIONER(S) REQUESTS THAT THE DELAYED PAYMENT OF THE MAINTENANCE FEE BE ACCEPTED AND THE PATENT REINSTATED.

STATEMENT

(In the space below, please provide the showing of unavoidable delay recited in paragraph 8 above.)

See 2 page document attached.

(Please attach additional sheets if additional space is needed)

**STATEMENT FOR 37 CFR 1.378 (b)**

As requested by USPTO on August 19, 2011, we are filing a renewed petition under 37 CFR 1.378 (b). The patent expired after payment was not received by USPTO for the 2nd maintenance fee. We sent Check #81940 (copy attached) to USPTO's Pennsylvania Address for the 2nd maintenance fee of \$1,180 on October 10, 2007. We did not receive the check back nor did we get any kind of notification that the payment had not been received. Additionally, we did not receive notice that the patent was going to expire or that it had expired. Up until the 3rd maintenance fee payment was sent in 2011, we believed this patent was in good standing.

On March 28, 2011, the 3rd maintenance fee payment was mailed (Check#90953 copy attached) in the amount of \$2,055. This check was originally mailed to the USPTO's Pennsylvania address as well. However, we received this check back and re-mailed it immediately to the new address in Virginia.

On April 13, 2011 we received notice by USPTO that the patent had expired and the check was returned. We immediately began researching the issue and filed a timely response, which began with our letter dated May 17, 2011 where we were told to file a petition. The petition was mailed on July 11, 2011. On August 19, 2011 in response to the July 11 petition, we received a letter from the USPTO recommending that we file a renewed petition under 1.378 (b).

All documents and past correspondence are attached that outlines all details. In that documentation you will find that we mailed the payment timely for both the 2nd and 3rd maintenance fees due in 2007 and 2011 respectively. Additionally, upon researching the issue after being informed that the patent had expired, we found out that the correspondence address was incorrect on the patent and that is why we did not receive a notification of problems with the payments nor notification that the patent was going to expire. I can assure you that had we received any notification, we would have addressed the issue immediately. And finally, upon researching the original check mailed, while we were unable to validate the check within our system due to a software change, we were able to confirm that the USPTO did not cash the check as we have verified with the bank that the original check has not cleared the bank.

We respectfully ask that you accept this renewed petition and revive the patent that expired. This patent is vital to our operation and our competitiveness in the marketplace. We believed this patent was in good standing and that is why the 3rd maintenance fee payment was made as scheduled for the 11 ½ year fee in 2011. Upon first finding out there was a problem with the patent, we acted timely and made all necessary payments as requested along the way promptly as well.

It is quite clear based on the information supplied, that the patent should be revived due to unavoidable circumstances. The payment was sent in a timely manner on October 10, 2007 which is evidenced by the copy of the check mailed. Additionally, upon being informed that there was a problem with the patent on April 13, 2011, we promptly contacted the USPTO beginning in May 2011, which resulted in a petition being filed on July 11, 2011. In response to our July 11, 2011 petition, we received notification on August 19, 2011 from the USPTO that we should file a petition under 37 CFR 1.378 (b).

All payments required I think have been previously submitted. Along with our May 17, 2011 letter, we resubmitted as requested a check for the 2nd maintenance fee (7 ½ year check #91289 attached). This was to replace the check not received by USPTO in October 2007. We were told to re-submit the check at the new rates for the 7 ½ year maintenance fee. Additionally, we re-submitted check #91290 for the 3rd maintenance fee due (11 ½ year) as the previous check sent was returned. We also sent Check#91291 for the \$700 surcharge. And finally, along with our July 11, 2011 petition, we sent Check #91639 for the \$200 petition fee.

We sincerely appreciate your help on this matter and look forward to getting this issue resolved. If there is any additional information that I can help you with in considering this matter, please do not hesitate to contact me.

Re: 377 Petition -- Patent Number 6,059,140

Please accept this letter as a petition to revive a patent that you recently informed us has expired. In a phone conversation with April, I was advised to send a letter of explanation & proof that we sent in our last two maintenance payments. We just recently were informed that this patent expired when we made the 11 year patent maintenance fee payment in March of 2011. Apparently, our previous payment made in 2007 was not received by USPTO. As requested, please see below for details surrounding the payments on this patent.

- A check in the amount of \$2,055 was mailed on 3/29/2011 for the 11 year maintenance fee. It was check#90953. The check was mailed to USPTO in Pittsburg, PA. It was returned to us for address change. We forwarded the check to the new address in VA. This payment was received by the USPTO office in a timely manner.
- We received a notice on April 20, 2011 that the payment was not accepted because the patent had expired on 5/9/2008. I immediately called the patent office and discussed the problem with Kieu Tran. In our discussion, she stated that USPTO did not show receiving the payment that we mailed in 2007. At that time, I faxed over all relevant data to Kieu Tran. Upon speaking with her on May 13, 2011, she informed me that I would have to contact the office of petitions.
- The 7 year maintenance fee payment was paid by check in the amount of \$1,180. The check was mailed out on 10/10/2007. It was check #81940. The check was mailed to USPTO, Po Box 371611, Pittsburg, PA 15250. A copy of the stub that I kept in my file is attached.
- We never received a notice that the patent had expired and obviously in fact believed that this patent was still in force. Upon speaking with Kieu Tran, I checked into why we would not have received an expiration notice, and found that the original patent attorneys Kennedy Covington Lobdell & Hickman out of North Carolina were still listed as the contact for this patent. They were the attorneys for our competitor. We were awarded rights to this patent in the settlement of a lawsuit. If a notice was sent to them, they never bothered to re-forward it to us. I verified with all staff involved here on our end, and can assure you that we did not receive any notice of the expiration of this patent. If we had, we would have taken prompt action!

I can assure you that we would never have knowingly let this patent expire. We made payments in 2004, 2007, and this last one in 2011. We did not know that the payment was not received in 2007. Additionally, we did not receive an expiration notice. Had we received a notice of expiration, we would have acted upon it promptly. Upon receiving our 11 year payment back and finding out that the patent had expired, we immediately got to work to find out what happened as well as how to revive the patent promptly.

This item that we have patented is an extremely important product for our business. We are in a highly competitive industry and this product is one of the leaders within our industry. It is imperative that this patent remain in force. We are willing to pay any fees associated with reviving the patent. From what I understand, you will need us to resubmit the 7½yr payment that you did not receive at the current rate of \$1,240, the 11½yr payment of \$2,055 as well as a \$700 surcharge since it has expired. If there are any other fees, just let us know and we will submit all payments promptly!

It is quite clear based on the information supplied above that the patent should be revived due to unavoidable circumstances. The unavoidable circumstances are two fold. First, we made the patent maintenance fee payments in plenty of time in both 2007 and again in 2011. Second, we never received an expiration notice so that we could quickly see why the patent had been slated for expiration. Had we received a notice, we would have researched the 2007 payment much earlier to see that it had not been applied and would have had the opportunity to resubmit another payment immediately if necessary. Included are the separate checks for the 2007 (7½yr) payment of \$1,240, the 2011 (11½yr) payment of \$2,055 that had been refunded to us by USPTO, and a check for the \$700 surcharge fee. Additionally, I will need to know what I need to do to change the correspondence address to ensure that we receive all communication in the future. Please feel free to contact me at (254)899-7169. Your consideration into this matter is greatly appreciated.

Re: 377 Petition - Patent Number 6,059,140

This letter is in reference to the petition and patent number as shown above. Please find our original statement submitted May 17, 2011 that outlines the details surrounding the payments on this patent. The 2nd maintenance fee payment that was sent to the USPTO on October 10, 2007 was for \$1,180 check #81940. A copy of the check that I kept in the file is attached. I believe that the payment may not have been received by the USPTO as the payment was sent to PA, just like the first and third payment. However, unlike with the 3rd maintenance fee that was paid on 3/29/11, I did not receive any notification of an address change nor did I receive the check back. Therefore, I had no reason to believe there was a problem with the 2nd maintenance fee payment. In fact, I was not made aware that the patent had been allowed to expire until after we mailed the third maintenance fee payment. All 3 payments were submitted to the PA address. The first check that was sent to the PA address was processed, the second check sent to the PA address does not appear to have been processed nor was it returned to us with an address correction, the third check which was also sent to the PA address was returned with an address correction and then immediately remailed to VA. Upon receipt of the third payment by the USPTO in VA, we were notified that the patent had expired. As explained previously, in researching this matter further, I found that we did not receive a notice of expiration because the address on file for the patent correspondence (unbeknownst to us) was for the original attorneys Kennedy Covington Lobdell and Hickman out of North Carolina, which were the attorneys for our competitors at the time we were awarded the rights to this patent in the settlement of a lawsuit. We were not notified of the expiration of this patent by these attorneys either.

Your help in this matter is most appreciated. As mentioned in our previous letter of May 17, 2011, this item that we have patented is an extremely important product for our business. It is quite clear based on the information supplied that the patent should be revived due to unavoidable circumstances, which are two fold. First, the patent maintenance fees were paid in a timely manner to the PA address on file in both 2007 and 2011 as evidenced by checks attached. Second, we never received an expiration notice so that we could quickly see why the patent had been slated for expiration. If we had received a notice, we would have immediately researched the situation and taken immediate action to resolve the matter. However, it did not come to our attention that the patent had expired until we submitted the third payment as scheduled. Upon receiving notice that there was a problem with this patent, we immediately began to research and respond in a timely fashion.

With my May 17, 2011 letter, I resubmitted per your instructions three separate checks, one for \$1,240 which represents the 2007 payment (current 7 ½ year fee) and a check for \$2,055 which represents the 2011 payment (11 ½ year fee) and a check for \$700 which represents the surcharge fee. With this letter, please find the petition fee of \$200 which is attached as requested in your letter dated 6/23/11. I have also attached the statement under 37 CFR 3.73 (b) as I, the assignee, has signed this petition. I have also attached the form to change the address for all future correspondence concerning this patent.

We appreciate your consideration in this matter. If there is any additional information or monies that are due, please do not hesitate to contact me. My email is renaew@customcrest.com. My phone number is (254)899-7169. I will address any concerns that you may have immediately so that we may get this matter resolved as quickly as possible.
